

## Films On Demand - Content Widget

The Content Widget offers a new way to boost your Films On Demand usage. By displaying a customized range of preview clips on your HTML page, the widget provides your students with a fresh and targeted entry point into the Films On Demand platform. Here's how it works:

1. **Login** to [admin.films.com](http://admin.films.com), select the Usage Boosters tab, then the Content Widget tab.

**FYI**

You must be the account administrator to access [admin.films.com](http://admin.films.com).

### 2. Design your customized widget using the steps below:

1. Enter a search term. You can search by keyword or item number.
2. Make your title selections from the search results by clicking on the + symbol in a "Add" column.
3. Each selection that you make is added to the Widget Builder on the right hand side of the page.
4. Once you have made all of your selections, enter a widget name and save your widget.

Note: All saved widgets are stored in the Saved Widgets table at the bottom of the page and can be edited later.

Item Number	Title	Add
43713	Gumbo: Ken Burns' Jazz, Part 1	+
43714	The Gift: Ken Burns' Jazz, Part 2	+
43715	Our Language: Ken Burns' Jazz, Part 3	+
43716	The True Welcome: Ken Burns' Jazz, Part 4	+

- Gumbo: Ken Burns' Jazz, Part 1
- The Gift: Ken Burns' Jazz, Part 2
- Our Language: Ken Burns' Jazz, Part 3
- The True Welcome: Ken Burns' Jazz, Part 4
- Swing Pure Pleasure: Ken Burns' Jazz, Part 5

3. **Copy the code.** Once your widget is saved, the custom code is automatically generated in the lower portion of the Widget Builder. Note: The custom code is static, so you only need to embed it once. Any later changes that you make to the widget will automatically be reflected in the embedded widget.

4. **Paste the code** into your HTML page. You can also preview your widget before embedding it by clicking on the preview button in the Saved Widgets table.
